

3

Post-censal population estimates.

4

Inter-censal population estimates.

5

Since 2006, a new concept of usual resident has replaced the previously used *de facto* population concept. Usual resident refers to all legal residents of Ireland whether they are present in the state on census night or temporarily away from home *and outside the state* on census night. According to the CSO Ireland, "the difference between these two definitions is very small."

6

Provisional data.

7

The data are given by year of registration (including some delayed registrations of deaths occurring in the previous years).

8

The data are given by year of occurrence.

9

The total of monthly births differs from the total number of births.
